NiceLabel
DESIGNER EXPRESS

The most affordable way to print labels from a database

The Full Spectrum of Labeling Software

NiceLabel

Basic labeling for small business

Design basic barcode labels in minutes and use Microsoft
Excel as a simple database.

Easy label designer

Benefits

Easily create bar code labels

Designer Express wizards help you quickly and
easily design labels. You can start printing finished
labels in minutes.

Print to any type of printer

Designer Express delivers maximum performance
and control of label printers when used with
NiceDrivers. You can also use any laser or inkjet
printer.

Use Excel as a database

You're already familiar with MS Excel, why not
use it to improve your labeling? Rather than
create 10 identical labels, design 1 and use
10 rows of spreadsheet data.

Solves basic labeling needs

Designer Express includes all common 1D, 2D,
and composite bar codes. Variable text and bar
code fields support database, prompts, counters
and date/time stamps.
