BRIDGE WMS

The Complete Warehouse Solution

Label Integrations

Label Manager links BarTender Automation with the Bridge WMS to produce labels using the information from your sales orders. Produce company branded labels at the touch of a button for professional packaging. Label Manager will eliminate inaccuracies in delivery and increase order completion speed.

BarTender Automation Edition

BarTender Automation Edition offers all the layout and data feature you need for high quality label design and error free printing. BarTender Automation Edition provides efficient automated printing with powerful process automation/business application integration. Enterprises of any size can seamlessly automate their label and document printing. A familiar user experience is provided so anyone can design and print labels without previous experience in barcoding, design, or advanced computer skills.

Key Features:

- Reliable automated printing to increase efficiency.
- Provide powerful control over creating and managing your system integrations.
- Highly customisable integrations.
- Rich text formatting.
- High quality image-processing controls.
- Manage user permissions and encrypt documents.

BarTender Enterprise Edition

The BarTender Enterprise Edition is more powerful it will maintain continuity as your business grows. Includes all the features in Professional Edition & Automation Edition, such as intelligent templates, secure anywhere, anytime. Internet printing, RFID and smart card encoding support.

Key Features:

- Extends even the most complex printing environments with unrivalled connectivity.
- Reliable control of the complete design and printing system.
- Centralised control for confidence and efficiency.
- Initiate printing automatically at “trigger” events. Such as the arrival of an email.
- Link to external graphics to enable dynamic changes.

Design & Controlled Print

This software is an all-inclusive suite that helps you quickly design dynamic label templates and optimises the efficiency of the printing process. With more than 6,800 printer models supported with native, optimised drivers and conditional printing based on data-driven automation rules.

Key Features:

- View, select and reprint labels and documents that might have been lost or damaged.
- Print to pdf effortlessly with native pdf support.
- Role-based access and security.
- Passwords protect editing and printing documents.
- Status monitoring.
- Email alerts for critical printing issues.
