Home About Us News Case Studies Partners Contact Us

MJM is pleased to announce the launch of their new website. Following a busy and successful year, the website has been developed to provide our visitors with an easy and informative experience.

The layout has been designed to deliver seamless navigation and to keep our customers updated regularly with news and product information.

The launch of the new website coincides with the recent release of Opera 3 and MJM is developing their products to be fully compatible with this release.

## Datalogic Mobile

MJM is pleased to announce their partnership with Datalogic Mobile. Datalogic Mobile is a global player in the rugged mobile computer market, offering a full range of products dedicated to main target applications such as warehousing, field force automation, and retail. Superior ergonomics, and a wealth of communication capabilities make Datalogic Mobile the PDA manufacturer of choice for your auto ID requirements.

### Datalogic Elf

Elf is designed to meet challenges encountered in Field Force Automation, Retail and Logistics. Capitalising on Datalogic's legendary ergonomics, the new PDA packs unprecedented features into a compact form factor.

### Datalogic Memor

The Datalogic Memor pocket-sized Windows powered mobile computer is an extremely compact, lightweight, versatile and robust device, combining integrated bar code reading and wireless communication capabilities.

### Datalogic Kyman

Kyman provides superior ergonomics with industrial sealing and high drop resistance for use in adverse conditions. This, along with state of the art architecture, a wide range of data capture and communication options, make the Kyman ideal for warehousing applications.

### Datalogic Skorpion

Skorpion is a rugged mobile computer suited to solutions in the retail environment, both in store and in the stock room. It is compact, lightweight, robust and reliable. Skorpion Gun is the pistol grip version, suited to warehousing scanning intensive applications.

## Zebra printers

MJM is happy to continue their successful partnership with Zebra Technologies. Zebra printers help companies to identify, track and manage assets, transactions and people with on-demand specialist digital-printing and auto-ID solutions. Zebra printers are used within a range of markets including transportation and logistics, manufacturing, retail, healthcare, post and parcel, government, hospitality, and mobile workforce.

### Zebra QL Plus

The QL Plus is designed for mobile labelling and can survive everything from warehouse floors to carparks. These powerful printers process and print quickly and are particularly suited to retail applications such as shelf edge labelling and price mark downs.

### Zebra RW Series

Zebra RW series mobile printers are available in 2" or 4" and are fully rugged making them ideal for mobile workforce. The Zebra RW range is best utilised automating applications such as printing delivery receipts and invoices on the go.

### Zebra G Series

Zebra G Series desktop printers provide best in class performance, reliability, durability and ease of use, ideal for applications such as retail and healthcare providing low-medium label output. They are compact in size well suited for use where space is limited.

### Zebra ZipShip

Zebra ZipShip is a specially selected range of supplies specifically developed for Zebra printers to provide for maximum performance and minimal wear and tear on the printer. ZipShip comprises of the most popular Zebra media available at great prices.
