18th August 2016

Dear Colin,

On behalf of all the trustees and staff of ARK Eastleigh I'm writing to say a huge thank you for the financial support that MJM Data Capture have provided to us in the last year. Your support has been a great encouragement to the team as they work hard to bring hope to some of the most vulnerable families and individuals in our community.

It's been another very busy year which has found the team donning protective cleaning gear (including face masks!!) to help a lady with serious hoarding issues after Environmental Health refused to enter her premises. It was worth it though as she has told us that ARK saved her life and our intervention has given her hope for the future.

Caroline, Sarah and our amazing team of volunteers have again coordinated social action projects for Hope Week in Eastleigh and we've organized some fun trips to the theatre, Portsmouth Historic Dockyard and Manor Farm to provide families facing significant challenges a chance to enjoy fun times together and build positive memories. We have also been busy delivering basics bank goods, befriending the isolated, giving lifts to those with no transport of their own and sourcing furniture and white goods as well as delivering over 30 Christmas hampers. I have attached a recent article written about ARK Eastleigh which gives a little more detail about what we get up to and a link to our website where you can find details of the activities that we've organized over the year.

Thank you once again for your incredibly generous support and for making a difference to your community

Yours sincerely

Lucy Freckleton
ARK Eastleigh
Chair of Trustees
