

## Bridge v4.43

June 2014

### Bug Fixes

#### Bridge MultiBin Server

- Fixed the bug that caused an error with printing received purchase orders.
- Picking lists can be sorted by Bin Numbers if they are available.
- Simple parcel details can now be added to the Despatch Sales Orders Screen.
- Extended Description and Memo sections for Purchase Orders to Stock Processing screen have been added.

#### Bridge Standard Server

- Bug Fix to stop empty accounts from crashing when creating new sales orders.
